

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

1. COMPANY AND PRODUCT / MIXTURE IDENTIFICATIONS	
1.1 Product identifier	
Trade name:	NP 16-20 with content of Sulphur
Other names:	Complex mineral fertilizer
Chemical name:	Not applicable
INDEX number as listed in Annex VI of CLP:	Not listed
CAS number:	Not applicable - mixture
1.2 Relevant identified uses of the mixture and uses advised against	
Identified uses:	<p>Industrial distribution.</p> <p>Industrial USE to formulate fertilizers product mixtures.</p> <p>Professional formulation of fertilizer products.</p> <p>Professional USE as fertilizer at farms – loading and spreading (includes soil conditioning).</p> <p>Professional USE as fertilizer in Greenhouse (e.g. Fertigation, includes pH control or fertilizer solution with acid).</p> <p>Professional USE as liquid fertilizer in open field (e.g. Fertigation).</p> <p>Professional USE as fertilizer – maintenance of equipment.</p>
Uses advised against:	Other non-specified industry, due to lack of related experience or data, the supplier cannot approve this use.
1.3 Details of the supplier of the safety data sheet	
Importer:	<p>AGROPOLYCHIM JSC</p> <p>BULGARIA</p> <p>Industrial zone</p> <p>9160, Devnya</p> <p>Tel: +359 / 519 97 419</p> <p>URL website: www.agropolychim.bg</p>
Person responsible for Safety Data Sheet (with e-mail address)	<p>eng. Miroslava Tsvetkova,</p> <p>eng. Chemical processes – Production Department</p> <p>Agropolychim JSC, 9160 Devnya, Bulgaria</p> <p>Tel.: +359 / 519 97 419, 553</p> <p>Email: vasileva@agropolychim.bg</p>

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

1.4 Emergency telephone number					
Emergency phone number in the company:		Tel: + 359 / 519 97 530 (24 hours / day)			
Emergency phone number in Bulgaria:		+ 359 / 2 91 54 346 (24 hours / day), Medical Institute, "PIROGOV", Sofia			
2. HAZARDS IDENTIFICATION					
2.1 Classification of the mixture:					
Classification in accordance with Regulation 1272/2008 (CLP)					
Classification:		Not classified			
2.2 Label elements					
Labelling in accordance with Regulation 1272/2008 (CLP), based on a main ingredient – Ammonium nitrate					
Hazard pictogram(s):		No pictogram (s)- none classified.			
Signal word		No signal word			
Risk statement (s):		Not defined			
Precautionary statement(s):		Not defined			
2.3 Other hazards					
PBT/vPvB criteria:		None applicable			
Other hazards which do not results in classification		Product forms slippery surface when combined with water.			
3. COMPOSITION/INFORMATION ON INGREDIENTS					
<i>Type: multi compositional mixture, complex mineral fertilizer, contained fertigation elements Nitrogen, Phosphorous and Potassium in a different combination that determined different grades of NPK, as well as micro element Sulphur.</i>					
Chemical name/formula	%	CAS / EC No's	ID App. 6 CLP	Classification under 1272/2008/EC	Registration No
DIAAMONIUM HYDROGEN PHOSPHATE, DAP, (NH₄)₂HPO₄	13	7783-28 -0/ 231 -987 -8	--	--	01-2119490974-22-0016
AMMONIUM DIHYDROGEN PHOSPHATE, MAP, NH₄H₂PO₄	23	7722-76 -1/ 231 -764 -5	--	--	01-2119488166-29-0020

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

DIAMMONIUM SULPHATE, (NH ₄) ₂ SO ₄	62	7783-20-2/ 231-984-1	--	--	01-2119455044-46-0172
SILICIUM DIOXIDE (QUARTS), SiO ₂	2		--	--	Exemption under Article 2(7) (b).
4. FIRST-AID MEASURES					
4.1 Description of first aid measures					
Eye contact:	Immediately wash eyes with plenty of running water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Seek medical advice if irritation develops and persists.				
Skin contact:	Wash affected skin area with plenty of water and soap for at least 15 minutes thoroughly while removing contaminated clothing and shoes. Seek medical advice if irritation develops and persists				
Ingestion:	Seek medical advice if the victim feels unwell. Wash out mouth with plenty of water and give plenty of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical advice if symptoms occur.				
Dust Inhalation:	Remove the victim from exposure into fresh air immediately if adverse effects (e.g. dizziness, drowsiness or respiratory irritation) occur. Leave the person at leisure and seek medical advice. It's advisable the distressed person to be watched over for 48 hours period.				
4.2 Most important symptoms and effects, both acute and delayed					
Skin contact	No known significant effects or critical hazards.				
Eye contact	No known significant effects or critical hazards.				
Ingestion:	No known significant effects or critical hazards.				
Inhalation	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.				
4.3 Indication of any immediate medical attention and special treatment needed: No defined.					
5. FIRE-FIGHTING MEASURES					
5.1 Extinguishing media					

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

Suitable:	Plenty of water.
Unsuitable:	Dry chemical; Foam. Do not smother with steam or sand.
5.2 Special hazards arising from the substance or mixture	
Potential explosion hazard when heated under strong confinement (e.g. tubes and drains) especially if contaminated with incompatible material. See chapter 10. In case of fire, may produce hazardous decomposition products such as nitrogen oxides (NO _x), ammonia (NH ₃), chlorine, hydrogen chloride.	
5.3 Advice for firefighters	
No special measures required. In the event of fire, wear a self-contained breathing apparatus and a chemical protective suit. Contact the proper local authorities. Ensure doors and windows are opened. Avoid inhalation of decomposition fumes.	
6. ACCIDENTAL RELEASE MEASURES	
6.1 Personal precautions, protective equipment and emergency procedures	
Avoid creating dusty conditions and prevent wind dispersal. Avoid contact with eyes, skin, and clothing. Use suitable protective equipment. Keep away from sources of ignition.	
6.2 Environmental precautions	
Prevent the material from contact with soil, entering surface water or sanitary sewer system. Do not discharge directly to a water source. If accidental spillage or washings enter drains or waterways-inform immediately local authorities.	
6.3 Methods and material for containment and cleaning up	
Vacuum or sweep up spillage and collect in suitable labelled containers for recovery or disposal. Do not collect spilled material in sawdust or other combustible material. Prevent formation of dust clouds. After cleaning, flush away traces with water.	
6.4 Reference to other sections	
See section 8 for personal protective equipment and section 13 for disposal considerations.	
7. HANDLING AND STORAGE	
7.1 Precautions for safe handling	
Technical measures/ Precautions:	Use with adequate ventilation. Local exhaust ventilation should be provided. Avoid contact with eyes, skin and clothing. Avoid creating dusty conditions and prevent wind dispersal. Keep away from incompatible materials. Keep away from moisture. Use only clean equipment.
Advice on protection against fire and	Keep away from heat and sources of ignition. Keep away from combustible materials.

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

explosion:	
General occupation hygiene:	Do not eat, drink or smoke in work areas. Wash hands after handling. Remove contaminated clothing and protective equipment before entering eating areas. Keep away from food, drink and animal feeding stuffs.
7.2 Conditions for safe storage, including any incompatibilities	
Requirements for storage areas and containers	Keep in a cool, dry and well-ventilated place. Restrict stack size (according to local regulations) and keep at least 1m distance around the stacks of bagged products. Suitable materials for containers: Plastics, Stainless steel, Aluminium Unsuitable materials: Zinc, Copper
Further information on storage conditions	Protect from sunlight. Do not expose to temperatures exceeding 32 °C. Avoid unprotected outdoor storage, Protect from moisture.
Advice on common storage:	Do not store near combustible materials. Keep away from incompatible materials. See Chapter 10. On farm, ensure that the fertilizer is not stored near by hay, straw, grain, diesel oil etc. When stored loose, take care to avoid mixing with other fertilizers.
8. EXPOSURE CONTROLS / PERSONAL PROTECTION	
8.1 Control parameters	
Regulated occupational exposure limit values:	No occupational exposure limits established.
Recommended monitoring procedures (following safety assessment estimation):	If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazard substances.
8.2 Exposure controls	
Appropriate engineering controls:	No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures,

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

	local, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
Environmental exposure controls:	Dispose washing waters in accordance with local regulations.
Individual protection measures	
Respiratory protection:	Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Hand protection:	Use protective (heat resistant) gloves complying with an approved standard if a risk assessment indicates this is necessary.
Eye protection:	Use chemical goggles or face shield, complying with an approved standard if a risk assessment indicates this is necessary.
Skin and body protection:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Hygiene measures:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. A washing facility or water for eye and skin cleaning purposes should be present.
9. PHYSICAL AND CHEMICAL PROPERTIES	
9.1 Information on basic physical and chemical properties	
Appearance:	Solid
Odour:	Odourless
Odour threshold:	Not applicable
Melting range:	120 – 180 °C
Boiling temperature:	Not applicable – decomposes below boiling point.
Flash-point:	Not applicable

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

Flammability:	Not flammable.
Explosive properties:	Not explosive.
Oxidizing properties:	Not classified as oxidizing.
Vapour pressure:	17.2 mm Hg at 20 ⁰ C, water solution
Relative density (D4 (20)):	Not applicable
Solubility in water:	Easily soluble in water.
Partition coefficient n-octanol/water:	Not relevant as the substance is inorganic, considered to be low (based on high water solubility)
Viscosity:	Dynamic: Not applicable (solid). Kinetic: Not determined.
Specific conductivity:	Not applicable.
Auto ignition temperature:	Not applicable.
pH (10% water solution)	4.5 – 6.0
Surface tension:	Not applicable.
9.2 Other information	Bulk density: ~ 1.100 kg/m ³
10. STABILITY AND REACTIVITY	
10.1 Reactivity	
No dangerous reaction known under conditions of normal use. Stable under normal temperatures and pressures. No specific test data related to reactivity available for this product or its ingredients.	
10.2 Chemical stability	
Stable under recommended storage and handling conditions (see section 7, handling and storage).	
10.3 Possibility of hazardous reactions	
Under normal conditions of storage and use, hazardous reactions will not occur.	
10.4 Conditions to avoid	
No specific data.	
10.5 Incompatible materials	
Reducing materials, metal salts, metals, acids, basis, combustible materials, organic materials.	
10.6 Hazardous decomposition products	
Under normal conditions of storage and use, hazardous decomposition products should not be produced.	
11. TOXICOLOGICAL INFORMATION	

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

<i>11.1 Information on toxicological effects</i>	
ACUTE TOXICITY	
Conclusion/Summary:	No known significant effects or critical hazards.
<u>Irritation/Corrosion</u>	
Respiratory:	No known significant effects or critical hazards.
Eyes:	No known significant effects or critical hazards.
Skin:	No known significant effects or critical hazards.
<u>Sensitization</u>	
Skin:	No known significant effects or critical hazards.
Respiratory:	No known significant effects or critical hazards.
<u>Mutagenicity</u>	
Conclusion/Summary:	No known significant effects or critical hazards.
<u>Carcinogenicity</u>	
Conclusion/Summary:	No known significant effects or critical hazards.
<u>Teratogenicity</u>	
Conclusion/Summary:	No known significant effects or critical hazards.
<u>Reproductive toxicity</u>	
Conclusion/Summary:	No known significant effects or critical hazards.
Information on the likely routes of exposure	No known significant effects or critical hazards.
<u>Potential acute health effects</u>	
Inhalation:	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Ingestion:	No known significant effects or critical hazards.
Skin contact:	No known significant effects or critical hazards.
Eye contact:	No known significant effects or critical hazards.
<u>Symptoms related to the physical, chemical and toxicological characteristics</u>	
Inhalation:	No specific data
Ingestion:	No specific data
Skin contact:	No specific data
Eye contact:	No specific data
<u>Delayed and immediate effects and also chronic effects from short and long term exposure</u>	

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

<u>Short term exposure</u>	
Potential immediate effects	No known significant effects or critical hazards.
Potential delayed effects	No known significant effects or critical hazards.
<u>Long term exposure</u>	
Potential immediate effects	No known significant effects or critical hazards.
Potential delayed effects	No known significant effects or critical hazards.
<u>Potential chronic health effects</u>	
Conclusion/Summary:	No known significant effects or critical hazards.
General:	No known significant effects or critical hazards.
Carcinogenicity:	No known significant effects or critical hazards.
Mutagenicity:	No known significant effects or critical hazards.
Teratogenicity:	No known significant effects or critical hazards.
Development effects:	No known significant effects or critical hazards.
Fertility effects:	No known significant effects or critical hazards.
<i>12. ECOLOGICAL INFORMATION</i>	
<i>12.1 Toxicity</i>	
Conclusion/Summary:	No known significant effects or critical hazards.
<i>12.2 Persistence and degradability</i>	
Conclusion/Summary:	No known significant effects or critical hazards.
<i>12.3 Bioaccumulative potential</i>	
Conclusion/Summary:	No known significant effects or critical hazards.
<i>12.4 Mobility in soil</i>	
Soil/water partition coefficient:	Not available
Mobility:	Not available
<i>12.5 Results of PBT and vPvB assessment</i>	
According to Annex XIII of Regulation (EC) No 1907/2006, no PBT and vPvB assessment has been conducted since the ingredients are with inorganic characterization.	
<i>13. DISPOSAL CONSIDERATIONS</i>	
The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario (s).	

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

<u>13.1 Waste treatment methods</u>	
<u>Product:</u>	
Methods of disposal:	The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
Hazardous waste:	Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.
<u>Packaging:</u>	
Methods of disposal:	The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Empty the bag by shaking to remove as much as possible of its contents. Empty bags may be disposed of as non-hazardous material or returned for recycling.
Special precautions:	This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
<i>14. TRANSPORT INFORMATION</i>	
UN Number:	ADR/RID: not regulated. Not dangerous good. ADN/ADNR: not regulated. Not dangerous good. IMDG: not regulated. Not dangerous good. ICAO/IATA: not regulated. Not dangerous good.
Proper shipping name:	No special requirements. Not dangerous good.
Transport hazard classes:	ADR/RID: no classification assign ADN/ADNR: no classification assign IMDG: no classification assign

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S

Created on August, 2013

	ICAO/IATA: no classification assign
Packaging group:	ADR/RID: not regulated. Not dangerous good. ADN/ADNR: not regulated. Not dangerous good. IMDG: not regulated. Not dangerous good. ICAO/IATA: not regulated. Not dangerous good.
Marine pollutant	No
Special precautions for user:	Not applicable
15. REGULATORY INFORMATION	
15.1 Safety, health and environmental regulation/legislation specific for the substance or mixture:	
Regulation EC 1907/2006 (REACH), Annex XVII, Restrictions on the manufacture, placing on the market and use of hazard substances and mixtures.	Not applicable
Other EU regulations: Europe inventory: IPPC – Parameter “Air”: IPPC – Parameter “Water”: Fertilizer Regulation 2003 / 2003:	Not determined. Not listed. Not listed. Applicable.
16. OTHER INFORMATION	
<p>DISCLAIMER: The information provided in this safety data sheet is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. ANNEX - IDENTIFIED USES

1. Use: Professional use, Formulation	
Chemical product category:	PC12 - Fertilizers
Process categories:	<p>PROC 5 - Mixing or blending in batch processes for formulation of preparations and articles (multistage and/or significant contact)</p> <p>PROC 8a - Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at non-dedicated facilities</p> <p>PROC 8b - Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at dedicated facilities</p> <p>PROC 9 - Transfer of substance or preparation into small containers (dedicated filling line, including weighing)</p> <p>PROC 15 - Use as laboratory reagent</p> <p>PROC 19 - Hand-mixing with intimate contact and only PPE available.</p>
Environmental release categories:	<p>ERC 2 - Formulation of preparations</p> <p>ERC 8B - Wide dispersive indoor use of reactive substances in open systems</p> <p>RC 8E - Wide dispersive outdoor use of reactive substances in open systems</p>
Activity:	Blending with e.g. compost, substrates and pesticides, packaging, dilutions, suspension, loading and unloading (bulk or bags). Equipment cleaning and maintenance.
Further information:	A qualitative approach was used to conclude safe use for workers. As minimal systemic effects were only noted at such high levels of substance that humans are normally not exposed to (see DNELs), a quantitative assessment is not considered necessary. The safety data sheet at hand provides the user with risk management measures and operational conditions which enables him to work with the mixture. See Sections 7 and 8 of this safety data sheet.

In accordance with Regulation (EC) 1907/2006 (REACH), Annex II and Regulation 453/2010

Complex fertilizer NP 16-20 + 13S
